Lynn N. Hughes

Honorable District Judge

With all due respect I like to extend my displeasure when hearing about your decision on the case

Of the RED LIGHT CAMERAS in Houston, I realize that contracts are important, but if the City of Houston

Makes a contract, and it's not the will of the people like the voters showed, then they (the City) should

Deal with the problem they caused, even if they have to be liable for it, my hopes are that THE WILL OF

THE VOTERS would have been your number one consideration when making your decision, the one thing

That separates us from a communist regime, or a dictatorship is the very thing I feel was violated in this

Case. I hope that a higher court sees this as clearly as I do and nearly 200,000 other citizens in Houston.

With all due respect.
